The Hon Rob Stokes MP  
Minister for Planning and Public Spaces  
GPO Box 5341  
SYDNEY NSW 2001

11 April 2019

Dear Minister,

I write on behalf of my constituents who have been unfairly waiting for the release of the Liberal Government's Glenfield Precinct Plan for more than a year.

It is unacceptable the Liberal Government failed to release its plans for Glenfield before the State Election – despite previous assurances the plans would be available for public consultation in early 2018. It is now April 2019 and the Glenfield Precinct Plan is still shrouded in secrecy.

My community deserves to know the Liberal Government's overdevelopments plans for Glenfield. We have the right to know exactly how many rooftops will replace the vital green open space at Hurlstone Agricultural High School and the proposed heights of high-rise flats in Glenfield.

I want to take this opportunity to once again make it clear that selling the farm at Hurlstone is bad policy that will have a negative impact on students and further add to congestion in south-west Sydney. The Liberal Government must reverse its atrocious decision to hive off this invaluable education farm to developers.

As I informed the previous Minister, my Stop the Squeeze survey found that residents in my community are fed up with the Liberal Government's unfair planning agenda that threatens high-rise monstrosities, destroys our green open spaces and fails to deliver the infrastructure we need.

I urgently call on you to release the Glenfield Precinct Plan so my community can have its say on the Liberal Government's appalling decisions to sell the farm at Hurlstone to greedy developers and unfairly increase height limits in south-west Sydney.

My community has waited long enough. Stop the delaying tactics and release the Glenfield Precinct Plan.

Yours sincerely,

A handwritten signature in blue ink, appearing to read 'Anoulack Chanthivong'.
