The Hon. A.J. Constance MP
Minister for Transport and Roads
office@constance.minister.nsw.gov.au

29 April 2021

Dear Minister,

I write on behalf of my constituents regarding the reported review into the increased pressure facing drivers due to the cost of tolls.

My community and I have long campaigned for a fair tolling regime. Drivers in south-west Sydney have suffered because of rising toll costs under this Liberal Government.

There is one action that must be implemented as part of any toll review: scrap the toll on the M5 East.

Household budgets are stretched to their limit. Drivers are unfairly being charged to drive on an old road that had been free for 20 years.

If the Liberal Government was serious about toll relief for drivers in south-west Sydney, it would scrap the toll on the M5 East.

I look forward to your advice on how the Liberal Government will finally do the right thing by motorists in south-west Sydney by scrapping the M5 East toll.

Yours sincerely,

A handwritten signature in blue ink, appearing to read 'Anoulack Chanthivong'.
