5 May 2020

Dear Minister,

I write in relation to the need to fast-track the Edmondson Park School project that has been lagging in the planning process for more than a year.

I note your recent announcement that several projects across the state will undergo a fast-tracked assessment process as part of the response to the COVID-19 pandemic.

It has been more than a year since the planning process for Edmondson Park School (SSD-10224) was placed on hold. This is simply not good enough. I share the frustration of local parents who just want to send their kids to a local school.

I urge you to work with the Minister for Education and Early Learning to ensure plans for Edmondson Park School do not sit idle any longer.

Edmondson Park is a fast-growing suburb. It is unacceptable that residents have been forced to wait years for adequate infrastructure.

I look forward to your advice on this matter.

Yours sincerely,

A handwritten signature in blue ink, appearing to read 'Anoulack Chanthivong', written over a light blue horizontal line.
