The Hon. A.J. Constance MP  
Minister for Transport and Roads  
GPO Box 5341  
SYDNEY NSW 2001

5 September 2019

Dear Minister,

I write again in relation to the ongoing commuter parking crisis at Edmondson Park Station.

Unfortunately, the Parliamentary Secretary's response to my previous correspondence on this matter has done little to answer my questions or assure the community that there is an imminent solution to the parking crisis.

The Liberal Government created this problem by not building an adequate car park at the station to cater for the growing population of Edmondson Park. More needs to be done to relieve the burden on commuters.

I request that the parking restrictions around Edmondson Park Station be reviewed, with the view of creating more parking spaces where it is safe to do so.

I also ask for clarity on when the Liberal Government's promised 700 new spaces will be delivered. Holsworthy MP Melanie Gibbons promised construction would start this year, yet no construction money was allocated in the budget.

Your Government has also touted delivery by mid-2020 but advice I have received from Liverpool City Council states Transport for NSW has advised construction could take some time.

Please advise, as a matter of urgency, the timeframe for delivering all 700 new spaces at Edmondson Park Station.

Yours sincerely,

A handwritten signature in blue ink, appearing to read 'Anoulack Chanthivong'.
