Dear Resident,

Anoulack and Labor's priorities for local residents:

- 1** Stop the Squeeze: Fighting against overdevelopment
- 2** Improved train services and commuter parking
- 3** Investing in our children's future and TAFE
- 4** Better health services including mental health
- 5** Fair access for all
- 6** Protecting our healthy koala population

Fighting for our fair share

Anoulack Chanthivong MP

Stop the Squeeze: Fighting against overdevelopment

"I will always hold the State Liberal Government accountable for destroying our green space and suburban character."

The people of my electorate have rejected the Liberal Government's plans to turn our area into a developers' dumping zone. They have said no to congestion, more high-rises and more urban splatter at the expense of our community's character.

I am proud to be your voice in State Parliament and together let's continue to send a strong message to the State Liberal Government - Stop the Squeeze!

Improved train services and commuter parking

"I want to help ease any undue stress on local commuters and working families."

Local residents find the daily commute unbearable due to the unfair timetable, non-air conditioned trains and the lack of parking at stations.

Labor policy is to give refunds for avoidable delays, let school kids travel for free, build more commuter parking at Edmondson Park and Leppington Stations and review the disastrous train timetable.

Investing in our children's future and TAFE

"I will always defend public education and vocational training."

Our young people deserve to have the best resources to get the most out of the education system.

Labor policy is to air condition every classroom in local schools and guarantee at least 70% of government funding for skills training goes to TAFE.

Better health services including mental health

"I will continue my community forums on mental health so we can keep talking about this important issue and remind us all that mental health matters."

Nurses at local hospitals are overworked and under resourced due to a lack of support from the Liberal Government. Research shows there is a clear link between higher staff levels and improved outcomes for patients.

Labor's policy is to deliver new nurse-to-patient ratios and extra security staff at NSW hospitals.

Fair access for all

"I stand by the people of south west Sydney and won't give up the fight for our fair share."

It is unacceptable that the frail and elderly, people with disability, parents with prams and travellers with luggage are unable to use Macquarie Fields station without a lift.

Despite the Liberal Government's inaction on this issue, I refuse to give up the fight for fair access for all in our community.

Protecting our healthy koala population

"Let's give the koalas the trees and protection they need."

The Liberal Government's overdevelopment agenda means koalas are increasingly at risk of injury or death in urban areas.

Labor policy is to establish a 4000-hectare Koala National Park from Glenfield to Appin and provide \$3 million to set up a koala care centre in Macarthur.
